Relevant Standards:
EN 13277-1/2000, EN 13277-3/2014, European directive 89/686/EEC CE marking of PPE
Mechanical protection for sport & leisure.
CE examination certificate has been issued according to EN 13277-3/2014 by Institut Pro
Testovani A Certifikaci, a. s. trida Tomase Bati 299, 764 21 Zlin – Louky, Czech Republic. Notified
body no. 1004.

Instructions for use:
The product falls into the category of personal protective equipment, the fundamental purpose
of which is protection of the body from injuries that may be sustained during participation in the
sport of Karate.
The product affords protection of the body against hand, leg and foot impacts, and against
accidents by fall. It protects against contusions, abrasions, lacerated wounds, fractures, etc., but it
does not afford protection against serious injuries that may be possible martial arts.
Place arms through the shoulder straps and, head through the collar. Bring Body Protector
Karate Chest Protector to the chest. Fasten the stretch Velcro closure on right hand side to give a
comfortable close-fitting fit.

NOTICE FOR USERS:
This product can be used only for the above described purpose. In case of degradation (wearing
through, undoing of seams, etc.) the level of protection is decreased and the protector
performance becomes unsatisfactory according to above mentioned standards and should not
be used.

Storage:
Store in a clean, dry, aired space; temperature range 10–30 °C; no contamination by moisture,
chemicals, pollutions, moulds, or by other agents decreasing the level of protection. Do not store
exposed to direct sunlight.

Cleaning:
The protectors are cleaned by hand washing with water 30°C, mild soap and air drying.
Protective features are otherwise stable after repeated maintenance/ washing at 30°C.

Disposal:
In accordance with legislation valid.
